Beautiful Handmade British Bed

Hi everyone,

Welcome to our March newsletter, say goodbye to the long dark nights and welcome in the start of spring with its new burst of life!

It is time to spring clean and spruce up your home with our exciting new beds, furniture and soft furnishings.

Our upholstered beds & headboards come in many designs, if you want storage we also make divan sets with drawers and Ottoman beds with large storage space.

Ottoman Bed with sprung beech slatted base

Junamoon mattresses compliment the beds beautifully and work in unison. The Pocket Sprung system follows the lines

and contours of your body to cradle you and give the correct spinal support. Our comfort layer has

cashmere, silk and wool to provide a luxury feel and each mattress is side stitched to give edge to edge support.

Junamoon make many items of furniture for your home.

You choose the fabric and we make you a unique piece of furniture that's all yours!

Junamoon can complete your room set with complimentary **curtains and cushions** and maybe a throw for your sofa!

We deal with most of the fabric companies, you choose a look that's right for you!
